EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with John Bird on 14 March 2005.

2. The application has been amended as follows:

In claim 19, at line 3, "a" has been changed to --at least one--.

In claim 20, at line 1, --at least one-- has been inserted before "central".

Claim 33 has been canceled.

Remarks

3. Claim 19 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claim 20, directed to Species C (Figs. 8-20), is no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. However, claim 33 has been canceled because it is drawn to a different embodiment than claim 19 and therefore does not include all the limitations of an allowed generic claim as required by 37 CFR 1.141. Claim 19 recites a device for a vehicle having four wheels, while claim 33 is directed to a vehicle with treads (i.e., tracks).

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. Claims 19 and 20 have been amended above in order to clarify the language found at lines 1-2 of claim 20.

Art Unit: 3616

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Muller, Wettstein and Heyring et al. teach mechanical linkages interconnecting diagonally opposed vehicle wheels.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter C. English whose telephone number is 703-308-1377. The examiner can normally be reached on Monday through Thursday (7:00 AM - 5:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul N. Dickson can be reached on 703-308-2089. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
